A misstep, resulting in his falling
while carrying a ladie of hot metal from
the cupola to the furnace in the Southern shops yesterday afternoon, came near ending the life of Mr. Peachy Waugh, a young man well known in Manchester, his head falling within three inches of the large lade filed with molten lead. As though by a miracle none ten lead. As though by a miracle none of the lead spilled out in the direction of his head, though it did slosh over the side, missing him by about six inches. Ind the lead struck his face it would have burned to the bone. A ladle is a receptacle for carrying the metal, and on one side has two handles and on the other only one. Mr. Waugh had hold of the side with only one handle, and was walking along when he stumbled and fell. The wonderful presence of mind of the other two men in setting the large tub-like vessel down at once undoubtedly saved Waugh's life, as otherwise the best part of the hot lead would have been turned directly on the prostrate.

NEED FOR READING ROOM.

With the coming cold weather, forcing the young men off the street corners, there comes the hue and cry for a place for them to congregate, thus savings them from going into saloons or other had places and falling into evil habits. Rev. H. H. Moore, pastor of Cowardin-Avenue Christian Church, who has had valuable experience in this kind of work for the young men, who agitated such a step last winter, wishes by all means to see a reading room established before this winter shall have passed.

NEGRO VS NEGRO Henry Brooks, a negro man, thoroughly honest and bearing a good reputation for veracity, tells the police a peculiar experience of his Tuesday night. He was walking along Eighth Street when sud-denly another negro man sprung from the mouth of an alley and confronted him with the proposition to hold up his hands. His hands went towards the stars in short order and then the robber ettempted to go through him. Henry brought his powerful fist down upon the head of the highwayman, knocking him out at the first blow. Then marching him in front, Henry was bringing him to the station house, when near the corner of Eighth and Hull the negro bolted, running directly by Officer Smith. The officer did not pay very much attention to the case at the time, thinking the negros were playing, but when Henry came puffing up, the whole case was told to him and then both went hunting for the robber, but he escaped. Anyway, Henry says he is satisfied. THE FAIR.

It was a smaller crowd, yet none the less appreciative, that attended the secand night of the "Country Fair," at Jeader Hall, under the management of the ladies of Bainbridge Street Baptist Church. Governor Montague to Speak in Danville To-Night-Political Notes.

The last days of the congressional campaign in Virginia are dragging along without many additional signs of interest, though it is the general impression that the finish will land ten Democratic representatives in the Fifty-eighth Con-

ville at noon to-day and will electrify his old home constitutents by his elo quence in the Opera House there tonight. That the Governor is popular among his old neighbors and friends is evidenced not only by the fact that Danville went for him over Mr. Swan-son, but that pressure for him to appear there in the interest of his former rival has been so strong. When it comes to standing by the party Messrs. Montague and Swanson both forget their old differences and plunge in for Democratic success. The latter supported the former loyally on the stump last fall and now the situation is reversed and Governor responds gladly to the bugle call of his party. There are no developments of interest

in the struggle, either here or out in the State. The City Democratic Committee will meet at Murphy's to-morrow night, but there is little or nothing of importance to be down.
